NATIONAL CONFERENCE & Research to Business (R2B) Meet on Materials that Matter for Whiteware and Technical Ceramics

First National Seminar on Raw material challenges & opportunities in the domain of Traditional and Advanced Ceramics and a Conclave of Manufacturers, Raw Material Suppliers, Academia & Researchers.

24th
JANUARY, 2025

AVASA HOTEL
HITECH CITY, HYDERABAD

ABOUT THE SEMINAR

Raw Materials are pivotal in the ceramic industry, serving as the foundation for creating diverse ceramic products, from whiteware to Technical Ceramics. Raw materials' availability, quality, quantity and consistency significantly influence the production efficiency and cost. The user industry plays a vital role in setting trends that drive the demand for raw materials and innovation. The focus of this seminar is to bring together Whiteware and Technical Ceramics industry professionals, raw material suppliers, researchers, R&D Centers, academia and experts on a single platform to discuss the industry challenges and opportunities with "Mining, Minerals availability, Process efficiency, Supply chain, Energy saving, Recycling, Green manufacturing, Product & Process innovation on natural and synthetic raw materials. This seminar will also cover material challenges for advanced and strategic ceramic products.

As a research-to-business (R2B) meeting, this seminar offers a unique platform for Indian research institutions to understand industry trends and innovation needs, bridging the gap between research and industry. Likewise, the industry sector gets an opportunity to understand key research happening in the respective institutions that might interest the industry. Overall, the Seminar offers a unique opportunity for business and research to collaborate on one platform to drive self-reliant India (Atmanirbhar Bharat).

Special Note: Since the seminar combines two significantly different domains of Ceramics, separate session plans are in place to make it relevant for each industry and research institution.
