About Anna University

State University producing professionals with high technical knowledge, professional skills and ethical values, and a preferred partner to the industry and community for their economic and social development through excellence in teaching, research and consultancy.

The major vision of Anna University will be towards developing a sustainable higher education system, through delivery of state of art teaching and learning, research and innovation, creation of entrepreneurial ecosystem, and outreach activities addressing the social, economic, and environmental targets. The core objective of the University is to work for the upliftment of the humanity at large.

Our Department...

The Department of Ceramic Technology has a rich history of producing successful professionals who have contributed to the growth of the ceramic industry and constantly strives to enrich fellow students by conducting knowledge enriching programs. The Department offers B.Tech, M.Tech, M.S (By Research) and Ph.D programme in Ceramic Technology. The department serves as a resource centre for Ceramic Science and Technology and also stimulates R&D activities in the technological and commercial development of new products and processes useful for the Ceramic and Allied Industries
