One day workshop on celebration of

INTERNATIONAL YEAR OF

GLASS
2022

26 JULY 2022

KEY SPEAKERS :

Ajeet Singh

Production Manager, Nipro
Pharma Packaging India Pvt Ltd

Khasim Saheb

Managing Director, Gerresheimer
Pharmaceutical Packaging Mumbai Pvt Ltd

Sanjeev Chinmalli

Principal Director
CDGI

Yadram

Retd Principal Technical Officer
CSIR-CGRI

T. K. Chakraborty

Head Float Line
Saint-Gobain Glass India Ltd

Sunil Dhingra

Director
Bio Trend Energy

Hotel Tree House
Bhiwadi, Rajasthan

Organized by

Saint-Gobain Glass India Ltd
and

Indian Ceramic Society

ABOUT WORKSHOP:

The United Nations formally approved a resolution declaring the year 2022 as the International Year of Glass to shine a light on a traditional, sustainable, and innovative technology. The spotlight on glass is meant to highlight how a traditional product can be a part of sustainable development. Humans have been using glass for thousands of years. Today, glass is an important part of our lives: We use glass to build cars and aeroplanes, houses and sculptures; we use it to communicate at the speed of light using fiber optics in our internet cables; we use glass to see more with microscopic lenses and to save energy with insulation. Glass production is a good example of the progress that has been made in decades and centuries considering energy consumption and emission, and of the need for a sustainable use of resources like sand.

To celebrate the heritage and importance of this material in our lives, Indian Ceramic Society is going to organize a Workshop on 'Latest Trends in Glass Technology' in association with Saint-Gobain Glass India Ltd., Bhiwadi.

OUR PROGRAM:

- * Inauguration at 9:30 a.m.
- * Welcome address by **T. K. Chakraborty**, Head Float Line, Saint-Gobain Glass India Ltd
- * Address by **Dr L. K. Sharma**, President, Indian Ceramic Society
